

Tomas Reyes

BACKEND SOFTWARE ENGINEER

tomas.reyes@example.com · +44 7700 900113 · Birmingham, UK

PROFESSIONAL SUMMARY

Backend-focused engineer with a strong background in distributed systems and API design, having spent the last three years building high-throughput services for a fintech platform. Recently completed AWS Solutions Architect certification.

EXPERIENCE

Backend Engineer — Pryce Financial

2021 – Present

- Designed the payments-reconciliation service handling 2M+ transactions daily.
- Led adoption of contract testing across 12 microservices, cutting integration bugs by a third.
- Earned AWS Certified Solutions Architect - Associate (2026).

Junior Developer — Hallow Digital

2019 – 2021

- Built internal tooling for QA automation used across three product teams.

EDUCATION

BSc Software Engineering — University of Nottingham

2016 – 2019

SKILLS

Node.js · PostgreSQL · Kafka · Kubernetes · System Design · AWS
