

Jordan Ellis Whitfield

Software Engineer

jordan.whitfield@example.com

+1 (415) 555-0198

San Francisco, CA

Summary

Backend-focused software engineer with 5 years of experience building recruitment and HR tooling, REST APIs, and relational database schemas. Comfortable across the stack but happiest close to the data model.

Experience

Senior Software Engineer — Northbridge Analytics (2022–Present)

- Designed and shipped a candidate-tracking service handling 40k+ applications/year.
- Led migration from a monolithic PHP app to a Node/Express + Prisma/MySQL backend.
- Mentored two junior engineers and ran the team's code review process.

Software Engineer — Fielding & Cross (2019–2022)

- Built internal reporting dashboards used by HR and finance teams.
- Implemented role-based access control across five internal tools.

Education

B.Sc. in Computer Science — University of California, Davis (2015–2019)

Skills

TypeScript, Node.js, Express, Prisma, MySQL, React, REST API design, Git
